

I understand that Discovery Dental Group is billing my insurance as a professional courtesy to me. I also understand that I am ultimately responsible for payment of all treatment and services rendered, even those procedures not covered by my plan.

**Please Note:** As we deal with numerous insurance companies and plans, it is impossible for our office to predict what your coverage will be. Some insurance companies allow submission of a pre-authorization for treatment. You may request that Discovery Dental Group do this on your behalf, but as you are ultimately responsible, we strongly recommend that you familiarize yourself with your own respective benefits. A pre-authorization may take weeks or months to complete, so for faster service we recommend that you call your insurance company or utilize their website to look up your benefits. For your convenience we have a computer terminal located in our lobby that you may use while in our office. Please let us know if we can be of any assistance.
